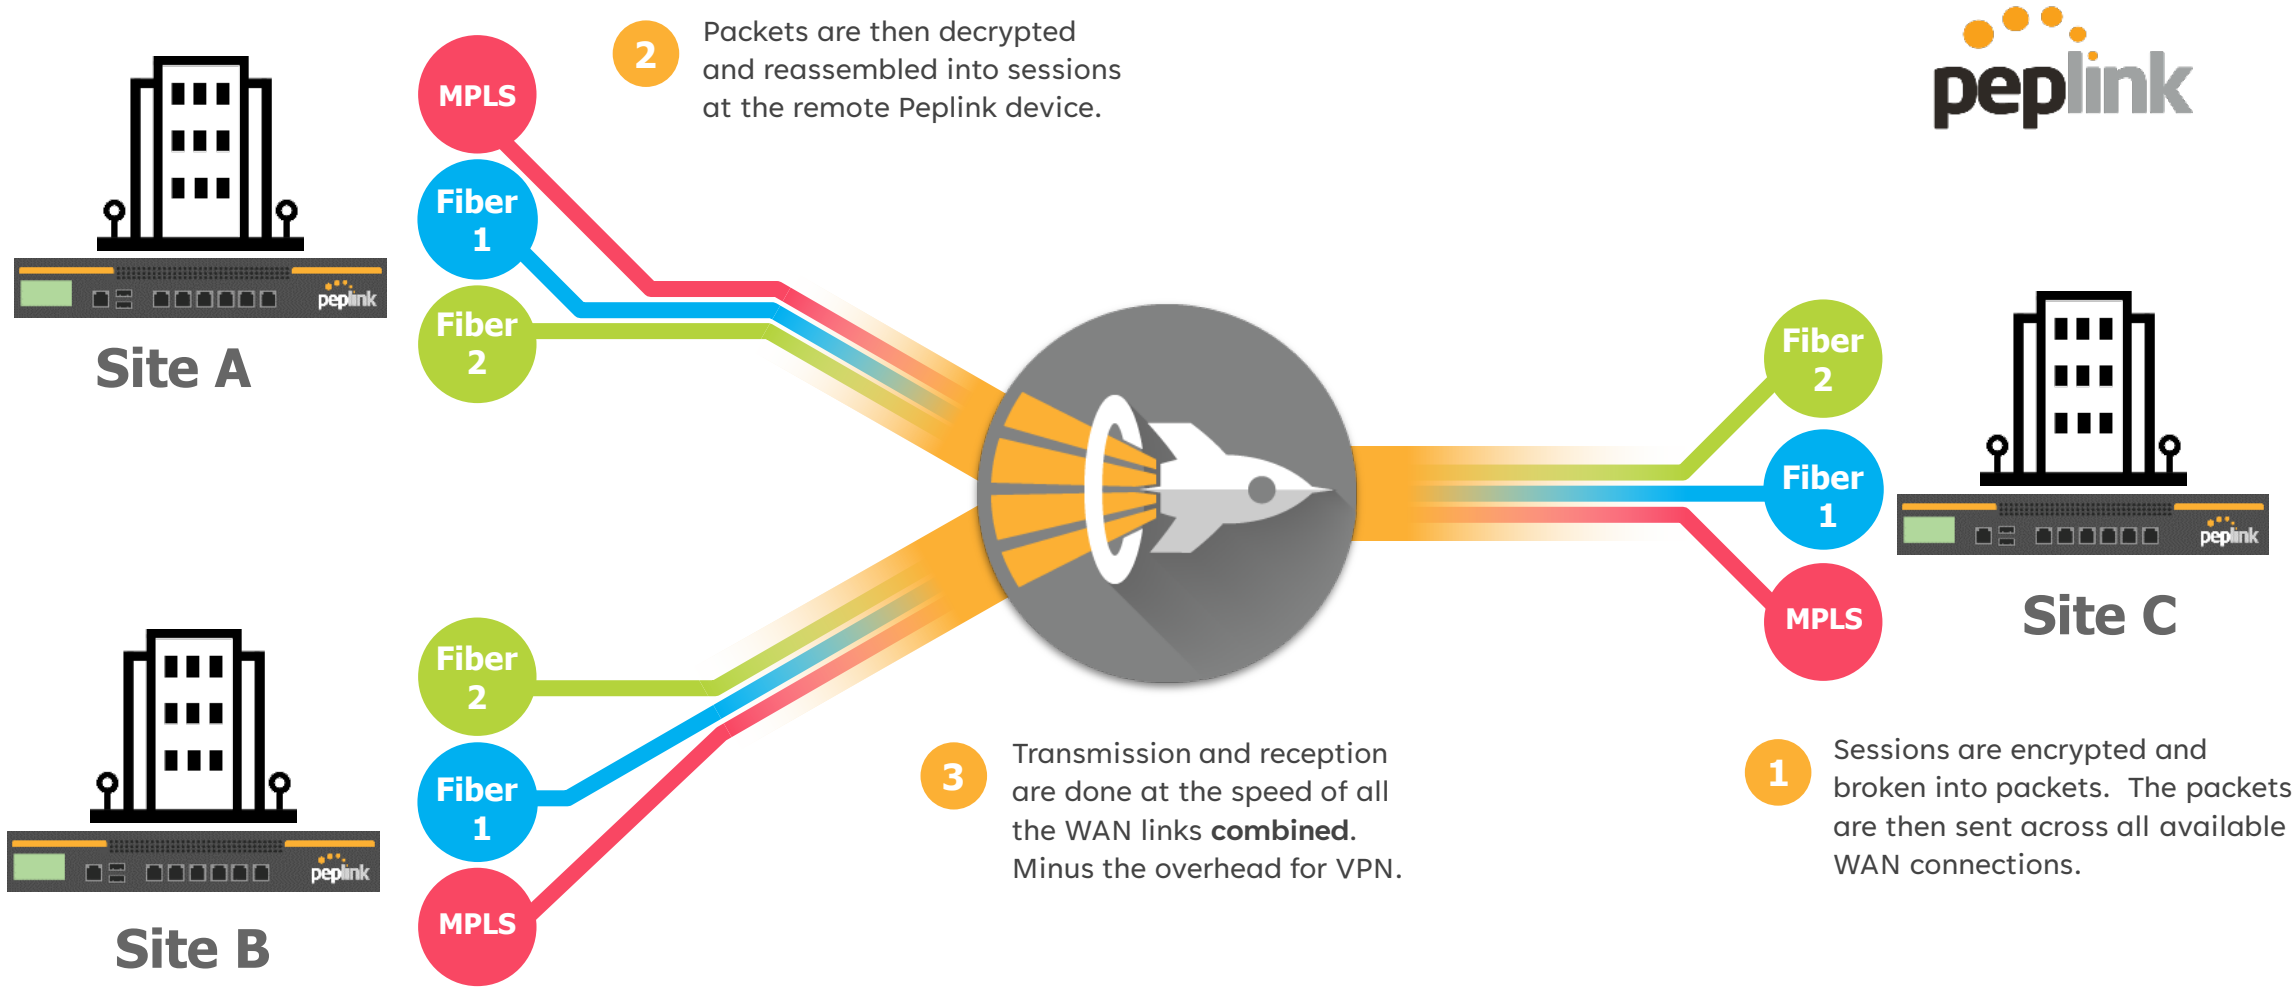
T-MOBILE FOR GOVERNMENT

SPEEDFUSION



PEPLINK'S SD-WAN: SPEEDFUSION
CORE TECHNOLOGIES

peplink

WAN Smoothing

Use multiple WAN connections to create a single, jitter-free data stream.

PepVPN

Offers the benefits of IPsec, plus a variety of performance and reliability features.

Bandwidth Bonding

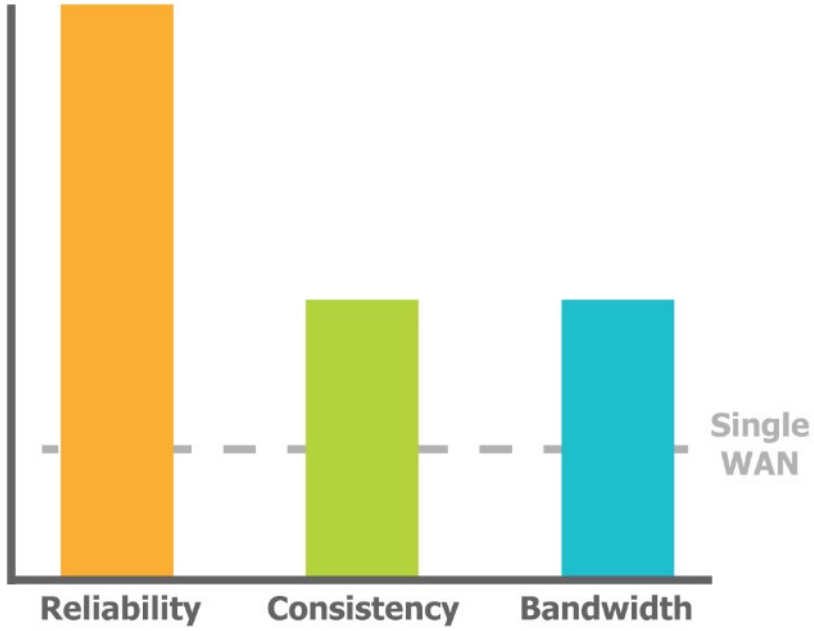
Combine the speed and bandwidth of multiple WAN connections.

Hot Failover

Switch from one WAN connection to another while keeping your sessions intact.

HOT FAILOVER: SPEEDFUSION

Enables you to change connections while keeping your session intact.



Useful for deployments where you need reliability while keeping costs down.

FUNDING

WHAT ARE YOU ALREADY USING?

- State Funds/Governor's Funds
- Library Service & Technology (LSTA) Grants
- Digital Equity Act: NTIA

WHAT ELSE IS THERE?

- Partnerships
- Foundations
- Other Federal, State, County, and City Grants
